2021 - 2022**

STUDENT MATINEE Series

Parker Arts offers educators the opportunity to enrich their curriculum with live performing arts productions. Our student matinee series allows for low-cost admission to national touring productions that integrate into your existing curriculum. Most student matinees include study guides and post-show talk-backs with the actors, directors and technical staff to further student educational experience at Parker Arts.

The Let's Go Science Show

October 1 • 10am & 12pm

PACE Center • Grades K-6

The Let's Go Science Show is a wacky look at "how things work" with Professor Smart and Ms. Knowitall. This fun-filled production teaches physics concepts through theatrically based experiments and demonstrations. Lots of audience interaction with these two legends of the circus, great scenery, and awesome lighting and illusions all make this one science lesson (with study guides available) that students won't want to miss.

Wild

July 7 & 8 • 10am & 12pm • The Schoolhouse

Grades PreK-3

Wilder is a rambunctious and willful child with energy to spare. Like his hero Max, from **Where the Wild Things Are**, Wilder struggles with minding authority and navigating issues of anger. He is certain life would have been better if rather than a boy, he had instead been born a "wild animal of the jungle." So he has decided to be one. Wilder's Mom does her best to guide her imaginative and headstrong son, but she struggles with the difficulties of being a single mother; having a "wild animal of the jungle" for a son only adds to the pressures. Join Parker Arts for this original children's play by local actor and director, Christopher Willard.

Run Time: 50 Minutes

Archaeology in Your Classroom

Fee: \$150 • Grades PreK-2

Bring the world of archaeology to your classroom! For the next hour you will find yourself digging, finding, and working in the lab to uncover the secrets of Terra, an ancient city of potters. Join us on a journey through time where your students will play the role as researcher, scientist, and historian.

Objectives: Learn that there are different kinds of dirt, understand that archaeologists study our past through our things, and practice scientific data collection and recording, and making observations and inferences.

Email PACEedu@ParkerOnline.org with your interest in bringing Archaeology to your classroom!

Workshop Length: 60 Minutes • *One class maximum (Approximately 30 students)*
